# WHO ARE WE?

Teltonika creates IoT connectivity equipment for the IoT world of tomorrow. With over 25 years of market expertise, we bring our vision and expertise to create products of seamless

connectivity, simple integration, and remote management capabilities for industrial solutions worldwide.

## Mission

Our exceptional skills in being a fast and flexible partner reflect our needs to be closer to our clients in every world region. Long-standing experience, reliable supply chain, highest technology process models stand for our ability to produce millions of IoT devices to our clients.

## Vision

We aspire to become one of the global leaders of providing unique IoT solutions that contribute to making people’s lives easier. We are open-minded to conclude the environment to the creative, ambitious work professional in Lithuania and the rest of the world to grow and contribute towards our Mission.

## Values

We not only work but also live to help and share kindness to the people, especially to those who need our help the most. We are keeping our values by continuously and courageously creating synergy between Teltonika and business partners, as well as clients.

# WHAT WE OFFER?

Our industrial routers, gateways, Ethernet switches, access points, modems, and remote management system are made with engineer

needs, mindset, and workflow in mind. These reliable networking equipment are made to last, perform, and bring your IoT vision to life.

# GROWING PORTFOLIO

## Reliable

Industrial-grade networking devices designed for durability and uninterrupted connectivity in the most rigorous environments.

## Secure

Maximum security ensured by regular safety audits, firmware updates, and vulnerability management by our dedicated cybersecurity team.

## Easy to use

High in simplicity and functionality, our products are engineered for professional applications without requiring any special training.

# HOLISTIC APPROACH

From concept to finished product, our networking products are designed, developed, and manufactured in-house in our manufacturing

facility in Lithuania, guaranteeing the highest European quality with maximum flexibility.

**8 cutting-edge  
SMT lines**

**100+ automation  
robots**

**Millions of products  
produced yearly**

## Expertise

Over 25 years of market expertise in reliably enabling industrial IoT and M2M solutions worldwide.

## Flexibility

Highly customisable products that adapt to your solution's needs.

## Assurance

Full and precise quality assurance in every step of production thanks to in-house design, development, and manufacturing.

# RUTOS

OpenWRT-based Linux OS designed for engineer ease of use, customisability, and efficient workflow

## Reliable

Enhanced uninterrupted connectivity and protocol support for your IoT needs

## Secure

Full of security features and failsafes to ensure maximum device and network security

## Easy to use

Streamlined and customisable UX for simple yet comprehensive management

### Mobile

Mobile modes	Bridge, Passthrough, NAT
Mobile features	Auto SIM switching, SMS & call control, SMS relays, SIM idle protection, framed routing
Mobile communication control	Operator black/white list (by country or separate operators), band lock, auto APN, multiple PDNs, USSD

### Wireless

Wireless modes	Access point (AP), station (STA), wireless mesh (802.11s), fast roaming (802.11r), Relayd, BSS transition management (802.11v), radio resource measurement (802.11k)
Wireless security	WPA2-Enterprise - PEAP, WPA2-PSK, WPA-EAP, WPA-PSK, WPA3-SAE, WPA3-EAP, OWE; AES-CCMP, TKIP, auto-cipher modes, client separation, EAP-TLS with PKCS#12 certificates, disable auto-reconnect

### Network

Connection monitoring	Ping reboot, Wget reboot, periodic reboot, LCP and ICMP for link inspection
Networking	VoIP passthrough support, connection monitoring, firewall, firewall status page, ports management, network topology, DHCP, QoS / Smart Queue Management (SQM), DDNS, Network backup, load balancing, hotspot, SSHFS, VRF support
Routing	Static routing, dynamic routing (BGP, OSPF v2, RIP v1/v2, EIGRP, NHRP), policy-based routing

### Security

Security basics	Preconfigured and customisable firewall, web filtering, DMZ, user control, firewall status
VPN and tunneling	OpenVPN, IPsec, GRE, PPTP, L2TP, Stunnel, DMVPN, SSTP, ZeroTier, WireGuard, Tinc, Tailscale
Authentication	Pre-shared key, digital certificates, X.509 certificates, TACACS+, Radius, IP & login attempts block, time-based login blocking, built-in random password generator

### Services

Time sync services	NTP (server, client), GNSS, Mobile operator
Other services	Data to server, I/O control, location services, WoL, network topology
Industrial protocols	MODBUS (supported connection types RTU (RS232, RS485), TCP, USB), BACnet, DNP3, M-Bus, OPC UA, DLMS
Communication & monitoring	JSON-RPC, MQTT (broker, publisher, subscriber, Azure MQTT, Kinesis), SNMP, SSH, TR-069, WEB UI, CLI
Serial modes	Console, serial and M-Bus over IP, modem, Modbus gateway, NTRIP
USB services	Samba share, USB-to-serial, storage memory expansion, printer server, DLNA
3rd party cloud support	Azure IoT Hub, AWS IoT Greengrass, Cloud of Things, Cumulocity, ThingWorx

### Customisation

RutOS developed on	Open-WRT based Linux OS
Supported languages	Busybox shell, Lua, C, C++, Python, Java
Development tools	Software development kit with a build environment
OS languages	English, German, Spanish, Portuguese, Japanese, Turkish

# TSWOS

OpenWRT-based Linux OS designed for easy and comprehensive managed switch workflow

## Seamless

Numerous DHCP options for enhanced network stability and control

## Secure

Comprehensive authentication features for enhanced security and access control

## Reliable

Remote port management, ensuring uninterrupted network performance

### Services

Supported protocols	EtherNet/IP, Profinet (class B), SNMP V2, V3, LLDP, and more
Network management	802.1p CoS, 802.1x port-based network access control, 802.1Q VLAN

### Network

MRP	MRP client/server
L2 features	Loop protection, forwarding table, VLAN, STP/RSTP
L3 features	Static IPv4 routing, static IPv6 routing, DHCPv6 client, static IPv6 address
DHCP	DHCP client/server, static leases, and MAC with wildcards
Port settings	Enable/disable, link speed control, port isolation, PoE management, EEE (802.3az) management, port mirroring

### Security

Authentication	PAM, Radius & TACACS+, IP & login attempts block
----------------	--

### QoS

QoS	Port priority, DSCP priority, 802.1p priority, ToS
Scheduling	SP/WFQ/WRR
Bandwidth control	Rate limiting, storm control
Traffic shaper	Port-based shaping

### Diagnostics

Tools	Cable diagnostic, ping, traceroute, nslookup
Ping reboot	Port-specific PoE reboot

# RMS

User-friendly platform for remotely accessing and controlling your fleet of devices, tailor-made to meet your remote IoT solution needs

## Access

Easy remote access to your devices – no public IP needed

## Unite

Unified platform with multitenancy capabilities

## Customise

Adaptable interface and functionality to best fit your needs

## Integrate

API support for integrating RMS into your solution

## Management

Gain complete and secure control over your fleet of Teltonika networking devices—no public IP needed

## Connect

Secure your entire remote infrastructure quickly and easily with robust VPN connections

## VPN

Reach and remotely control your end devices connected to RMS-compatible devices

### Security

Developed in-house, RMS ensures secure communication and data integrity by adhering to the strictest privacy and cybersecurity standards set by the European Union

### Hosting

Hosted on AWS: a leading cloud server synonymous with security, scalability, and high availability

### Applications

RMS VPN for direct VPN access and automatic client syncing

Mobile app for iOS and Android

Teltonika ID for two-factor authentication

### Pricing

Long-term or flexible licensing options for modular and cost-effective pricing

### Customisation

Adapt RMS to your solutions using custom control functions, alerts, and automation schemes

### Capabilities

Full management capabilities of supported Teltonika networking devices, including remote onboarding, custom alarms, firmware updates, automatic backups, performance analysis, and more

Secure and direct access to third-party devices via RMS Connect or VPN

### Availability

RMS is free to start: creating an RMS account, adding Teltonika networking devices, and testing its capabilities can all be done free of charge

NETWORK SEGMENTATION ROUTERS

# RUT1 SERIES

Flawless network segmentation

## COMMON FEATURES

### NAT functionality

Perfect for network segmentation

### Connectivity

2 × 10/100 Mbps Ethernet ports, Wi-Fi 4

### Power input

1 × 3-pin tailored for industrial use

### Quick & easy

Simple installation with an integrated DIN rail bracket

## RUT140

Compact, easy, and affordable

## RUT142

Compact & tailor-made for RS232 communication

## IDEAL FOR

### Network segmentation

Acting as boundary devices for isolated networks within an existing infrastructure, ensuring both network security and controlled external access

### Production line connectivity

Easy connection of each production line to a separate network, enhancing security, optimising traffic, and ensuring smooth data flow

### Legacy equipment connectivity

Easy connection of legacy equipment, including CNC machines, PLCs, medical equipment, and more

3-PIN CONNECTOR INCLUDED

SINGLE-SIM CELLULAR ROUTERS

# RUT2 SERIES

Seamless cellular connectivity  
for everyday solutions

## COMMON FEATURES

### Single-SIM LTE

4G LTE, backward compatible with 3G

### WAN failover

Automatically switches to an available backup connection

### Interfaces

2 × 10/100 Mbps Ethernet ports, digital I/Os

### Wi-Fi

2.4 GHz (b/g/n), wireless AP with hotspot

## RUT200

Affordable Cat 4 all-star for select regions

## RUT241

Industrial Performer with Seamless eSIM™ Connectivity

## RUT260

LTE Cat6 speeds in your pocket

### IDEAL FOR

#### POS systems

Seamless connectivity in retail, restaurants, hotels, or any mobile businesses

#### Digital service hubs

Reliable connectivity for digital signage displays and interactive self-service terminals, such as parcel or vending machines

#### Mobile and temporary deployments

Ideal for construction sites, events, or emergencies requiring quick and reliable connectivity

# RUT206

Compact & versatile

## IDEAL FOR

### Industrial automation

Easy connection to industrial equipment, including PLCs, sensors, and more

### Smart traffic control

Active & passive PoE for simplified installation with reduced cabling

### Renewable energy & utilities

Support of key interfaces and protocols for seamless equipment connection

## FEATURES

### LTE Cat 4

4G, backward compatible with 3G/2G

### Interfaces

Ethernet, RS232 & RS485

### Power input

1 × 2-pin tailored for industrial use

### PoE

Active & passive

# ENDLESS USE CASES

Explore the catalogue now!

## INDUSTRIAL ROUTERS

# RUT3 SERIES

Comprehensive cellular & Ethernet capabilities

### COMMON FEATURES

#### VPN support

GRE, PPTP, L2TP, Stunnel, DMVPN, SSTP, ZeroTier, Tinc & more

#### RMS

Compatible with our Remote Management System

#### Configurable I/Os

2 x configurable digital I/Os

#### Durable

Rugged aluminium housing withstanding -40 °C to 75 °C

## RUT301

Ethernet connectivity with versatile interfaces

## RUT361

361° of LTE Cat 6 & Wi-Fi connectivity

### IDEAL FOR

#### Sustainable energy

Easy monitoring of wind turbines, solar panels, and other infrastructure in remote, rural, or offshore locations

#### Smart city applications

Reliable connectivity for CCTV cameras, traffic management systems, billboards, digital signage, retail applications, and more

#### Smart agriculture

Seamless connectivity for remote farm management, from monitoring crops and livestock to automated feeding and controlling climate systems

## EXPERT REMOTE MANAGEMENT

DUAL-SIM CELLULAR ROUTERS

# RUT9 SERIES

Dual-SIM for uninterrupted connectivity

## COMMON FEATURES

### Dual-SIM

With auto-failover and backup WAN

### LTE Cat 4

4G, backward compatible with 3G/2G

### Ethernet

4 × 10/100 Mbps Ethernet ports

### Wi-Fi

2.4 GHz (b/g/n), wireless AP with hotspot

## RUT901

All-reliable cellular router for select regions

## RUT951 PoE+

All-reliable cellular router with PoE+

## RUT906

Master of interfaces for select regions, including RS232 and RS485

## RUT956

Master of interfaces available globally, including RS232 and RS485

## IDEAL FOR

### Industrial applications

Designed for reliable performance in industrial environments, including wide protocols support and DIN rail mounting

### Remote monitoring & management

Seamless connectivity for remote applications, including pop-up stores, precision machinery, remote mining operations, and mobile agricultural equipment

## VERSATILE INTERFACES, UNLIMITED POTENTIAL

\*RUT901 & RUT951

\*RUT906 & RUT956

INDUSTRIAL ROUTERS

# RUTM SERIES

For power, speed & versatility

## COMMON FEATURES

### Gigabit Ethernet

4 x ports with up to 128 supported port/tag-based VLANs

### Interfaces

Including digital I/Os & USB

### VPN

Including OpenVPN, IPsec, PPTP, L2TP & DMVPN

### RMS

Compatible with our Remote Management System

## RUTM08

Ethernet connectivity with 4x Gigabit Ethernet

## RUTM10

Ethernet connectivity with Dual-Band Wi-Fi

## RUTM09

Wired-only Cat 6 connectivity

## RUTM11

Cat 6 with Dual-Band Wi-Fi

## IDEAL FOR

### Urban development

Secure and stable connectivity for surveillance systems, traffic monitoring, elevator systems, and other urban spaces and applications

### Enterprise

Reliable Internet access combined with VPN support, traffic management, and other advanced features ensuring smooth operation and security

YOUR MULTITOO  
FOR NETWORKING  
MASTERY

EXPERT INDUSTRIAL ROUTERS

# RUTX SERIES

High-performance optionality

## COMMON FEATURES

### Connectivity

4G cellular, Ethernet & wireless routers

### Interfaces

Including Gigabit Ethernet, digital I/Os & USB

### RMS

Compatible with our Remote Management System

### RutOS

Feature-rich operating system with advanced security features

## RUTX08

Ethernet connectivity with 4x Gigabit Ethernet

## RUTX09

Wired-only Cat 6 connectivity

## RUTX10

Ethernet connectivity with Bluetooth and Dual-Band Wi-Fi

## RUTX11

Cat 6 with Bluetooth and Dual-Band Wi-Fi

## RUTX12

Dual Cat 6 modems with simultaneous connections

## RUTX14

Cat 12 with up to 600 Mbps

## RUTXR1

Rack-mountable Cat 6 with SFP port & dual power supply

## IDEAL FOR

### Retail

Seamless connectivity for POS systems, interactive kiosks, self-service and parcel terminals, vending machines, and more

### Public transportation

Reliable wireless connectivity for personnel, passengers, and on-board devices such as GPS trackers, ticketing terminals, and more

## DUAL MODULES, SINGULAR BRILLIANCE

REDUCED CAPABILITY 5G ROUTERS

# REDCAP SERIES

Higher Flexibility & Lower Cost

## COMMON FEATURES

### RedCap 5G

Low latency, high capacity, affordable pricing

### Future-proofing

Backward compatible with 4G LTE Cat 4

### Wi-Fi

Wireless access point with hotspot functionality

### WAN failover

Automatic switching to available backup connection

Compact & affordable 5G RedCap

5G RedCap master of interfaces

## IDEAL FOR

### Private networks

Balancing costs, performance, and efficiency while retaining the advantages of 5G technology

### Industrial IoT applications

Enabling low-latency connections for industrial machines, sensors, and devices needing reliable communication with minimal data throughput.

### Smart city

Optimised surveillance cameras, street lighting, parking sensors, traffic management systems, and other smart city applications.

# ENTER A REDCAP 5G WORLD

5G CELLULAR ROUTERS

# 5G SERIES

The 5G evolution of connectivity

## COMMON FEATURES

### 5G

Ultra-high cellular speeds over 3 Gbps

### Dual-SIM

Auto-failover, backup WAN, and other switching scenarios

### SA & NSA

Supports both 5G architectures

### Future-proofing

Backward compatible with 4G (LTE Cat 12, 19, 20) and 3G

## RUTX50

5G powerhouse for worldwide industrial applications

## RUTM54

5G router with a US-made Telit modem

## RUTM50

5G powerhouse for the North American and Japanese markets

## RUTM55

5G router for seamless serial integration

## RUTM51

MVP of 5G affordability

## RUTM59

Always-on 5G connectivity

## IDEAL FOR

Mobile & temporary deployments

Pop-up stores, event venues, outdoor festivals, construction sites, and other locations requiring reliable and quick-to-deploy connectivity

Industrial applications

Future proof manufacturing plants with ultra-high 5G cellular speeds, redundancy with dual SIM & eSIM, and RS232/RS485 serial interfaces, ensuring seamless integration of legacy equipment

# HARNESS THE POWER OF 5G NETWORKS

COMPACT 5G ROUTERS

# RUTM3 SERIES

5G Connectivity in a Compact Form

## COMMON FEATURES

### Connectivity

5G, 4G, 3G

### Dual-SIM

With auto failover, backup WAN, and other switching scenarios

### eSIM™\*

Seamless connectivity with eSIM™ SGP.22

### SA & NSA

Supports both architectures to leverage the 5G infrastructure

## RUTM30

Your compact 5G router with eSIM™

## RUTM31

Your cost-efficient 5G router

### IDEAL FOR

#### Industrial IoT

enabling low-latency connections for industrial machines, sensors, and devices needing reliable communication.

#### Digital service hubs

Connectivity for digital signage displays and interactive self-service terminals, such as parcel or vending machines.

#### Intelligent transportation systems

Reliable connectivity for smart traffic lights, surveillance systems, traffic monitoring and management.

SMALLEST  
5G ROUTER IN  
OUR PORTFOLIO

\*Depends on the order code.

# RUTC50

Your 5G wireless multitool

## IDEAL FOR

### Public transportation

Reliable wireless connectivity for personnel, passengers, and on-board devices such as GPS trackers, ticketing terminals, and more

### Pop-up events

Reliable connectivity in pop-up events and uninterrupted event streaming capabilities

### Smart city applications

Reliable connectivity for CCTV cameras, traffic management systems, billboards, digital signage, retail applications, and more

## FEATURES

### 5G

Ultra-high cellular speeds of up to 3.4 Gbps

### Wi-Fi 6

Dual-band multi-user MIMO wireless capabilities

### Enhanced processing

1GB RAM and 8GB flash for edge computing applications

### Dual-SIM & eSIM™

With auto-failover, backup WAN, and other switching scenarios

# RUTM52

Dual 5G for ultra-high speeds

## IDEAL FOR

### First responders

Dual 5G connectivity ensures reliable, real-time communication and seamless operation of critical devices like body cameras, GPS systems, and medical equipment

### Live streaming

Provides reliable, high-speed, and low latency 5G connectivity for uninterrupted broadcasts and stable performance in demanding network conditions

## FEATURES

### Dual 5G modems

Double the cellular speeds and always-on connection

### Dual-SIM & eSIM™

With auto failover, backup WAN and other switching scenarios

### SA & NSA

Supports both 5G architectures

### Future-proofing

Backward compatible with 4G (Cat 20)

# RATHER WATCH?

Explore our YouTube channel

# RUTM56

Dual modem router

IDEAL FOR

## First responders

Provides resilient communication for mobile command centres and vehicles. Its 5G high-bandwidth capabilities, with essential fallback to 4G, 3G, and 2G, ensure continuous coordination and critical data access even in compromised or challenging conditions

## Remote areas

Ensures essential connectivity for safety and operational efficiency in challenging remote environments. Provides stable and reliable network support for modern systems, leveraging critical 2G coverage for isolated areas where 4G/5G networks may be limited

FEATURES

## Dual modem

1 × 5G & 1 × 4G Cat 4 modems

## SIM & eSIM™

With auto failover, backup WAN and other switching scenarios

## Legacy network support

Backward compatible with 3G & 2G networks

## Plug-n-play

Ready to be used out of the box

OUTDOOR ROUTERS

# OTD SERIES

Go outdoors & brave the elements

## COMMON FEATURES

### Outdoor router

IP55 durability for outdoor deployment

### Dual-SIM

Auto failover and other switching scenarios

### PoE

Streamlined powering options

### Easy mounting

Integrated mounting bracket

## OTD140

Outdoor 4G router

## OTD500

Outdoor 5G router with eSIM

## IDEAL FOR

### Construction sites

Reliable connectivity for portable offices, trailers, and CCTV cameras under rainy and dust-exposed environmental conditions

### Remote outdoor monitoring

Suitable for all kinds of remote outdoor projects monitoring solar panels, pipelines, offshore installations, and more

### Rural & remote areas

Connectivity for farms, cabins, and rural businesses, ensuring seamless Internet access and device integration even in harsh outdoor conditions

## CONNECTIVITY THAT BRAVES THE ELEMENTS

SINGLE-SIM GATEWAYS

# TRB1 SERIES

Mission-focused gateways

## COMMON FEATURES

### Perfect interface

Each device is tailor-made to support a specific interface

### 4G LTE

LTE Cat 1, Cat 4, and Cat 6 single-SIM cellular gateways

### Industrial-grade

Compact, durable, and designed for industrial applications

### RMS

Compatible with our Remote Management System

## TRB140

Your LTE Cat 4 gateway to connectivity with Gigabit Ethernet

## TRB143

M-Bus for seamless telemetry

## TRB141

Your compact gateway to connectivity – with I/Os!

## TRB145

RS485 for multipoint communication

## TRB142

RS232 for point-to-point communication

## TRB160

Your LTE Cat 6 gateway to connectivity with Gigabit Ethernet

## IDEAL FOR

### Smart metering

Two-way communication between smart meters and central systems for easy, real-time telemetry

### Remote monitoring & management

Reliable, 24/7 monitoring and management of equipment, infrastructure, and environmental conditions

## YOUR NEEDS, YOUR SOLUTION

TRB140  
Ethernet

TRB141

TRB160  
USB Type-C

DUAL-SIM GATEWAYS

# TRB2 SERIES

Dual-SIM gateways for uninterrupted connectivity

## COMMON FEATURES

### Uninterrupted 4G

Dual-SIM with auto-failover and backup WAN

### Interfaces

1 x Ethernet port, configurable I/Os, RS232, RS485

### Compact

All you need, right in your pocket

### GNSS

Location services and time synchronisation

## TRB246

LTE Cat 4, backward compatible with 3G/2G

## TRB256

LTE Cat 1/NB-IoT & 450 MHz support

## IDEAL FOR

### Real-time telemetry

Reliable connectivity for real-time data collection and transmission to and from remote equipment

### Utilities

Expert and secure utilities system management, real-time data gathering from energy meters, and predictive maintenance

### Industrial applications

RS232 and RS485 for easy connectivity in industrial machinery, such as PLCs, CNC machines, and more

## GREATER RANGE, BROADER APPLICATION

# NTP001

Low-cost Stratum-1 NTP server

## IDEAL FOR

### Time synchronisation

Synchronising accurate, UTC-traceable time in both public and private networks

## FEATURES

### Network time synchronisation

Accurate & low-cost NTP server

### Multiple interfaces

Featuring RJ45, RS232, RS485 & I/Os

### Security

Authentication, access control & more

### Plug-and-play

Simple installation & configuration at minimum effort

# TRB500

Your gateway to a 5G world

## IDEAL FOR

### Automation

Maximum throughput at minimum latency for automation solutions demanding precision and high-speed processing

### Smart agriculture

Enhancing operational efficiency in agriculture applications and enabling increased scalability of smart machines

## FEATURES

### 5G

5G SA/NSA, backward compatible with LTE Cat 20 & 3G

### Throughput

Ultra-high cellular speeds of up to 1 Gbps

### Low latency

Single-digit latency for mission-critical applications

### Compact

Smallest 5G gateway on the market

UNMANAGED ETHERNET SWITCHES

# TSW0 SERIES

Unmanaged switches for zero-hassle deployment

## COMMON FEATURES

### Ethernet

5 to 8 10/100 Ethernet ports

### 2-pin power

Simple and suitable for industrial applications

### Easy mounting

Integrated DIN rail bracket for plug-and-play deployment

### Industrial design

Anodised aluminium housing and panels

Cover your switch basics effortlessly

8 ports, endless possibilities

8 PoE+ ports for power & connectivity

## IDEAL FOR

### Water & wastewater management

Remote management and control of water treatment plants, pump stations, sewage systems, and more

### Factory floor automation

Facilitates automation processes via connectivity for PLCs, sensors, actuators, and other industrial devices

### PoE lighting

Centralised control and reconfiguration flexibility for smart lighting systems

AFFORDABLE  
INDUSTRIAL  
SWITCHES

5-PORT UNMANAGED SWITCHES

# TSW1 SERIES

Unmanaged switches with Gigabit versatility

## COMMON FEATURES

### Plug-and-play

No additional configuration needed, no time wasted

### Easy mounting

Multiple DIN rail mounting options

### Ethernet

5 x Gigabit Ethernet

### Durable

Rugged aluminium housing withstanding -40 °C to 75 °C

## TSW100

4 PoE+ ports for your powering needs

## TSW110

For your 5-port solution needs

## TSW101

Tailor-made for automotive solutions

## TSW114

5 ports & integrated DIN rail bracket

## IDEAL FOR

### Smart building management

Connect your smart lighting, HVAC systems, occupancy sensors, and other devices

### Mobile/autonomous surveillance systems

Connect your IP cameras, recording devices, and other devices for real-time monitoring and enhanced security

### Industrial automation

High-speed connectivity for PLCs, HMI panels, industrial robots, and other automation and manufacturing devices

# SWITCH TO AUTOMOTIVE PoE

8-PORT UNMANAGED SWITCHES

# TSW2 SERIES

Gigabit network distribution

## COMMON FEATURES

### Plug-and-play

No additional configuration needed, no time wasted

### SFP

2 x SFP for long-range fibre-optic communication

### Ethernet

8 x Gigabit Ethernet

### Easy mounting

Integrated DIN rail bracket

## TSW200

8 PoE+ Ethernet & 2 SFP for maximum efficiency

## TSW210

8 Ethernet, 2 SFP, zero hassles

## IDEAL FOR

### Surveillance power hub

Connect your IP cameras, NVRs, and access control systems in surveillance deployments

### Smart agriculture

Connect your soil moisture sensors, weather stations, and irrigation controllers via simple setup and operation

### Energy storage systems

Seamless communication between solar panels and energy storage systems

# SFP

# SPEED, DISTANCE, FLEXIBILITY

## 8-PORT MANAGED SWITCHES TSW2 SERIES

Managed switches for expert applications

### COMMON FEATURES

#### Managed

L2 managed switches with L3 features

#### Protocol support

PROFINET, Ethernet/IP, LLDP, MRP, SNMP V2/V3, and more

#### SFP & Ethernet

8 x Gigabit Ethernet and 2 x SFP

#### TswOS

Custom OS tailor-made for managed switches

Network control with PoE+ capabilities

For your advanced network control needs

### IDEAL FOR

#### Manufacturing

Upgrade production lines to improve efficiency and reduce downtime

#### Highway tunnel infrastructure

Pivotal for ensuring continuous operation and safety via MRP support

#### Traffic control systems

Remote monitoring and management of traffic flow, signals, and surveillance cameras

CERTIFIED BY

# TSW304

Tiny switch for big ambitions

## IDEAL FOR

Emergency services  
& public safety

Ensures the resilience and continuity of communication systems during emergencies or power outages

## FEATURES

### Extra tiny

Only 102 × 25 × 81.5 mm

### Powering

Can be powered via DC, AC, or Ethernet

### Gigabit Ethernet

4 x Gigabit Ethernet ports

### Durable

Shock-resistant aluminium housing

# TSF010

Flat switch with deep functionality

## IDEAL FOR

Narrow & tight-space applications

Provides network connectivity for solutions low on space, such as information kiosks, digital signage displays, and ticketing machines

## FEATURES

### 3-pin power

Flexible and tailor-made for industrial use

### Flat & compact

Flat and compact design weighing only 142 g

### Easy mounting

Integrated DIN rail bracket for plug-and-play deployment

### 7-57 VDC

Suitable voltage range for industrial applications

## INDUSTRIAL CELLULAR MODEMS

# TRM2 SERIES

Connectivity – simple as that.

## TRM200

LTE Cat 4 backward compatible with 3G/2G

## TRM240

LTE Cat 1, backward compatible with 3G/2G

## TRM250

LTE Cat M1/NB-IoT, backward compatible with 2G

### COMMON FEATURES

#### Plug-and play

No additional configuration needed, no time wasted

#### Micro USB

Powered via Micro USB

#### Industrial-grade

Compact and durable devices with low power consumption

#### 4G

Single-SIM 4G modems

# TRM500

5G connectivity – simple as that.

### FEATURES

#### 5G

Ultra-high cellular speeds of up to 3.4 Gbps

#### Future-proofing

Backward compatible with 4G (Cat 19) and 3G

#### USB Type-C

For simultaneous network data and powering

#### Compact

Small size, easy installation

Wi-Fi ACCESS POINTS

# TAP SERIES

Seamless access, simple point

## COMMON FEATURES

### PoE-in

Can be powered via PoE

### Sleek & easy

UV-stabilised plastic housing and integrated mounting bracket

### RMS

Free access to RMS Management for 24 months

### Wi-Fi

802.11r, 802.11k, and 802.11v fast roaming support

## TAP100

Wi-Fi 4 for enhanced wireless coverage

## TAP200

Wi-Fi 5 for enhanced wireless coverage in small & medium spaces

## IDEAL FOR

### Public spaces

Extends wireless coverage in larger areas, such as shopping malls, universities, airports, event venues, and more

### People-counting solutions

Detection of Wi-Fi-enabled devices for people counting and motion analysis for establishing foot traffic patterns

### Enterprise connectivity

Ensures reliable Wi-Fi connectivity in all areas, including meeting rooms, offices, and common areas

## EASY ACCESS, EASIER MOUNTING

INDUSTRIAL ACCESS POINTS

# DAP SERIES

Industry-tailored wireless access

COMMON FEATURES

## Wireless

Seamless Wi-Fi 4 with Wi-Fi mesh & Fast Roaming

## Ethernet

2 × 10/100 RJ45

## Power input

1 × 3-pin tailored for industrial use

## Easy mounting

Integrated DIN rail bracket for plug-and-play deployment

## DAP140

Industrial, compact & affordable

## DAP142

Industrial, compact & affordable—with RS232

IDEAL FOR

### Smart factory

Seamless connectivity for automation systems and equipment, boosting efficiency and enabling real-time monitoring

### Industrial Wi-Fi mesh

Reliable wireless network with maximum coverage across large industrial spaces

### Legacy equipment

Easy connection to legacy equipment, including CNC machines, PLCs, medical equipment, and more

PERFECT FOR  
WI-FI MESH  
NETWORKS

# OUTDOOR ANTENNAS

Ultimate outdoor coverage

## COMMON FEATURES

### IP67

Water and dust-resistant for ultimate outdoor reliability

### Omnidirectional

Designed for reliable signal coverage from every direction

### Mounting bracket

Quick and easy pole/mast mounting

### Perfect match

Compatible and designed to contain select Teltonika routers

### FOR RUTX11 & RUTM11

4G, Wi-Fi, GPS & Bluetooth  
Order code: PR1IC970

### FOR RUTX50 & RUTM50

5G/4G, Wi-Fi & GPS  
Order code: PR1ICA70

### FOR RUT2 SERIES

4G & Wi-Fi  
Order code: PR1IC860

### FOR RUT9 SERIES

4G, Wi-Fi & GPS  
Order code: PR1ICC60

## SEAMLESS DEVICE INTEGRATION

# ACCESSORIES

A wide selection of industrial-grade accessories to perfect your networking solutions, including antennas, power supply adapters, and mounting solutions designed for optimal compatibility.

Can't find what you're looking for? Let us know and we'll get your fix.

## POWERING OPTIONS

**2-PIN POWER SUPPLY, 130W**  
EU: PR318EUA / AU: PR313AU3

**2-PIN POWER SUPPLY, 250W**  
EU: PR320EUA / AU: PR320AUA  
US: PR320USA / UK: PR320UKA

**2-PIN POWER SUPPLY, 62W**  
EU: PR317EUA / AU: PR317AUA  
US: PR317USA / UK: PR317UKA

**2-PIN POWER SUPPLY, 9W**  
EU: PR3PREU6 / AU: PR3PRAU6  
US: PR3PRUS6 / UK: PR3PRUK6

**DIN RAIL POWER SUPPLY, 15W**  
Order code: PR321NP0

**DIN RAIL POWER SUPPLY**  
Order code: PR3PDNP0

**POWER SUPPLY, 130W**  
EU: PR313EU3 / AU: PR313AU3  
US: PR313US3 / UK: PR313UK3

**POWER SUPPLY, 18W**  
EU: PR3PXEU3 / AU: PR3PXAU3  
US: PR3PXUS3 / UK: PR3PXUK3

**4-PIN TO 4-PIN POWER CABLE**  
Order code: PR2PP10B

**4-PIN PLUG WITH CONTACT TERMINALS**  
Order code: PR4MK04K

**4-PIN POWER ADAPTER WITH I/O ACCESS**  
Order code: PR5MEC21

**4-PIN TO BARREL SOCKET ADAPTER**  
Order code: PR2PD01B

**UNIVERSAL POWER SUPPLY, 24W**  
Order code: PR315PS3

**SINGLE PORT GIGABIT PoE INJECTOR**  
EU: PR322EU7 / UK: PR322UK7

**EU SINGLE PORT 10/100 MBPS PASSIVE PoE INJECTOR, 19 W**  
Order code: PR323EUB

**EU SINGLE PORT GIGABIT PASSIVE PoE INJECTOR, 24 W**  
Order code: PR324EUB

**AUTOMOTIVE POWER SUPPLY**  
Order code: PR2AM20M

**BAT120 POWER SUPPLY**  
Order code: BAT120000000

**POWER CABLE WITH 4-WAY OPEN WIRE**  
Order code: PR2PL15B

**POWER CABLE WITH 4-WAY SCREW TERMINAL**  
Order code: PR2FK20M
