

# PRODUCT TRAINING

## Essential Teltonika's networking product training

Join our interactive, five-hour Microsoft Teams training session for a comprehensive exploration of Teltonika's networking products. This discussion-based event, structured for small groups of up to 12 participants, will delve into the company's competitive landscape and key market drivers.

We'll provide a comprehensive understanding of our products' manufacturing process and their benefits, illustrated with real-world application scenarios. We'll also showcase the added value of Remote Management System in IoT solutions. Then, we'll explore RutOS functionalities and customization options, and guide you on leveraging our resources to benefit your business.

And, for the most exciting part, we will preview our product roadmap, upcoming updates, and newest features. Gain the expertise you need to leverage Teltonika's networking devices for growth and success.
