TELTONIKA

CERTIFICATION PROGRAMME

TECHNICAL TRAINING
MOBILE TECHNOLOGIES

SPEAKER

ALIAKSANDR KHOLALAU

Networking & IoT Engineer

ABOUT THIS TRAINING MODULE

This module offers a comprehensive overview of mobile technologies and their ecosystem. Participants will gain insights into the fundamentals of mobile hardware, learn effective troubleshooting techniques, and develop configuration expertise.

Combining theoretical knowledge and practical exercises, this module equips attendees with the skills to manage, optimise, and troubleshoot mobile systems effectively.

STRUCTURE

This training program is live training session, lasting 10 hours over the course of two days.

Up to 10 participants per session and includes an exam at the end. Participants must have a laptop capable of connecting to an Ethernet device with them.

TOPICS

Fundamentals	Connection process	Carrier agregation
Cat M1/NB-IoT	5G	SMS
Calls	Mobile troubleshooting	Mobile configuration

PRICE:
$250/€250 PER PARTICIPANT
