TELTONIKA

CERTIFICATION PROGRAMME

TECHNICAL TRAINING
RMS FUNDAMENTALS

SPEAKER

ALIAKSANDR KHOLALAU

Networking & IoT Engineer

ABOUT THIS TRAINING MODULE

This module provides an in-depth understanding of Teltonika's Remote Management System (RMS), a powerful platform for monitoring and managing Teltonika networking devices. Participants will explore its key features, including integrating third-party devices, establishing remote access, and leveraging its API for custom solutions. Hands-on sessions will equip attendees with the skills to optimise device management, ensure secure connections, and stream-line RMS operations.

STRUCTURE

This training program is live training session, lasting 8 hours over the course of two days.

Up to 10 participants per session and includes an exam at the end. Participants must have a laptop with them.

TOPICS

Introduction to RMS	RMS Management	RMS Connect
RMS VPN	RMS API	Device configuration
Task manager	Alerts & automation	Administration

PRICE:
$250/€250 PER PARTICIPANT
