

# ESSENTIAL TELTONIKA NETWORKS LEVEL 1 TECHNICAL TRAINING

Over the years of product creation and development, we figured that a device is worth as much as the capacity to use it well. By popular demand from our clients, we are launching a first-ever Level 1 Technical Training Program to help you use our products and systems efficiently in order to reach the best possible results.

## SPEAKER:

**VYTAUTAS GUSTAITIS** //  
Experienced Teltonika Networks HQ engineer

More than 5 years of experience with Teltonika Networking devices and services such as MODBUS, MQTT, MOBILE, VPN, and more.

## AGENDA:

- / NETWORK FUNDAMENTALS
- / TELTONIKA PRODUCTS
- / USE CASE SCENARIOS & TOPOLOGIES
- / TELTONIKA NETWORKS DEVICES CERTIFICATIONS
- / TELTONIKA NETWORKS PRODUCT CODES & VERSIONS
- / MAIN RUTOS SERVICES
- / RMS LIVE PRACTICE
- / INFORMATION GATHERING FOR DEBUGGING
- / IMPORTANT SYSTEMS (WIKI, WEBUI, VIP HELPDESK, CROWD SUPPORT FORUM)
- / INTRO TO OPENWRT AND LINUX DISTRIBUTION

## THE THINGS YOU WILL COVER:

During this training, you will get in-depth knowledge about Teltonika Networks products and their specifications. You will analyze specific topologies of real-life application scenarios and will acquire know-how of selecting the most suitable product for a particular solution.

You will get a first-hand RMS and RutOS experience, where you will have a chance to analyse different RutOS services. You will also gain an understanding of why Teltonika Networks products have different certificates and what it means for various businesses. Furthermore, you will learn how to use our product codes and how it is simple to choose the right device for your solution. By the end of the training, you will be able to identify technical issues and solve them by yourself, decreasing time spent and increasing efficiency.
